

Hello

In light of current worldwide events and the need to support the elderly and vulnerable, we at Care and Repair would be happy and willing to help our community in any way we can.

I'm hoping you can pass our details on to individuals, organisers or put me in touch with anyone in the community who may be organising support.

We're here to help, we're here to make things easier and here to support each other to remain as healthy and safe as possible.

Many thanks

Beth Aston

Casework Manager
